Making a Difference for 25 Years!

25th Anniversary Celebration

Friday, April 1, 2022

The **California Academy of Sciences** is among the largest museums of natural history in the world, housing over 26 million specimens, completely rebuilt in 2008. Based in San Francisco's Golden Gate Park, the Academy is a one-of-a-kind place to explore the nature and future of life on Earth. From the splashing penguins in African Hall to the wildflowers on the roof, the building is bursting with life. A four-story living rainforest and awe-inspiring coral reef ecosystem showcase some of Earth's most biodiverse habitats, while immersive planetarium shows offer a new perspective on the planet, we call home.
